Log-in for FREJA E-Service

To log on FREJAs E-Service, you need to open your Internet-browser and enter the following address:

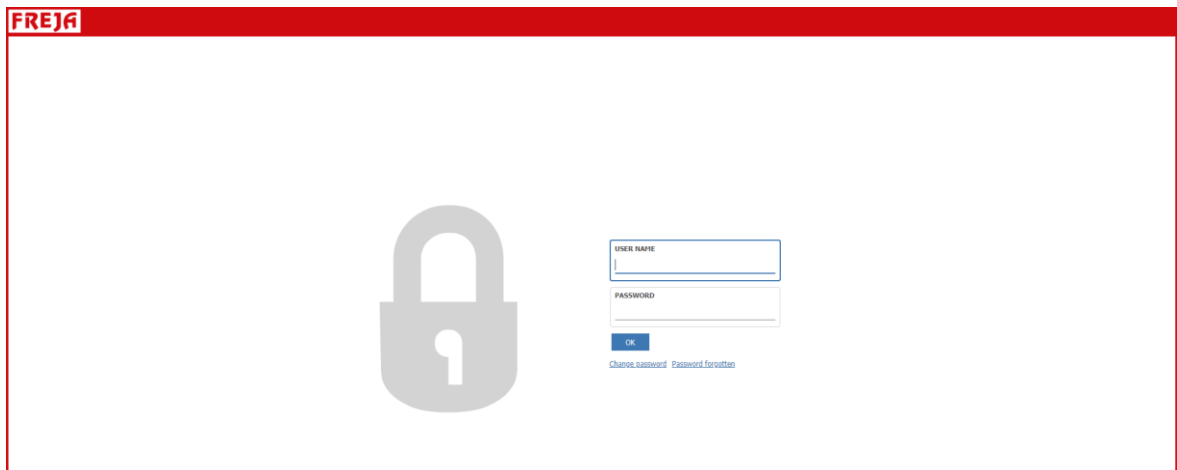

www.freja.dk or www.freja.com

We recommend that you use internet browser Google chrome.

Navigate to On-line booking.

Choose: Log-in

Following window will appear on your screen:

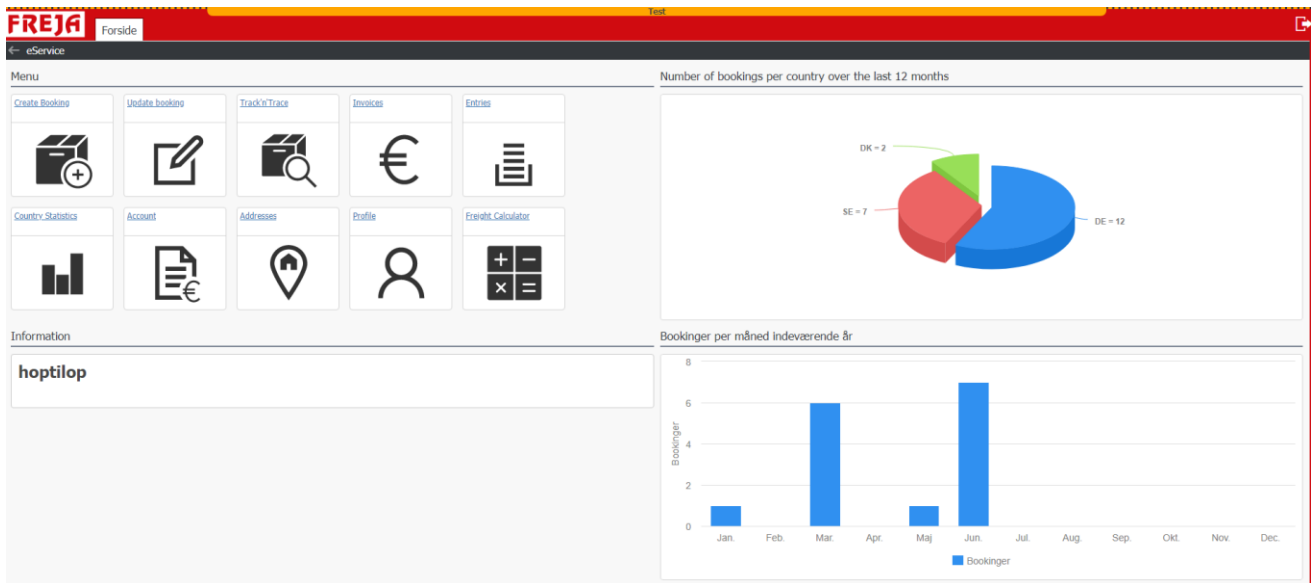

The screenshot shows a login interface for FREJA. It features a red header bar with the 'FREJA' logo on the left. The main content area is white and contains a large, light grey padlock icon in the center. To the right of the padlock is a login form with two input fields: 'USER NAME' and 'PASSWORD'. Below the 'PASSWORD' field is a blue 'OK' button. At the bottom of the form, there are two links: 'Change password' and 'Password forgotten'.

Enter your account name and code, which you have been given by your contact person from FREJA.

After this press 'OK'.

Navigation on E-Service

Above you can see the start picture of FREJA's E-Service.

Following functions are possible (settings access controlled) and are elaborated on the following pages:

Booking: Possibility to create own orders, which immediately will be accessible to FREJA. Creation is acknowledged with booking number and possibility to receive consignment note and label as well as the possibility to attach documents.

Update booking: In this tab it is possible to search all of your bookings, edit in already created booking (as long as it is not been predisposed/dispo'ed by FREJA), copy existing bookings and (re)print various prints as well as possibility to attach documents.

Track 'n Trace: In this tab it is possible to follow your bookings. Is it predisposed, has a consignment note been scanned etc? Other than that it is possible to find and print receipted consignment note.

Invoice overview: Invoice overview with key information about all invoices as well as a possibility to print a copy of the invoice.

Entries: In this tab it is possible to see relevant economic data between you as customer and FREJA. Here it is possible to choose between: All entries, Open entries and Dilapidated entries. All possibilities can be controlled by date.

Country statistic: Here it is possible to get sending as well as turnover statistic for a given period.

Account information: Shows your address and contact information as well as gives you an overview over the current status on various accounts.

Address overview: In this tab, you can see your own created customer database with all of the relations that are possible to choose in 'Create booking'. Besides that, it is possible to create new addresses as well as edit / delete in already existing customer relations.

Profile: Here you have the possibility to create a specific customer setup on your E-Service access.

Freight calculator: Here it is possible to calculate the expected price of freight according to applicable offer.

Booking

To create a booking, you need to choose the tab: 'Booking'.

E-service team in FREJA have created booking templates to the markets where there is an agreed online-solution . Via drop-down menu the market the market you wish to book to is chosen and after this 'Create booking via template'.

If you wish for more templates contact your contact person at Freja or write at: webbooking@freja.com.

When the template is chosen, you will get this screenshot (for full screenshot, press F11):

ADR No Danger Goods	

FREJA demands that at least the following fields are always filled in:

- Quantity colli/pallets
- Contents
- Weight

- *Volume*

These fields have to be filled in in order for us to guarantee quality in the continuing process.

Mark and nr.: Does the goods have a reference/order, optionally unload reference? (both seen on consignment note and invoice). Space for 15 signs!

Quantity: How many colli/pallets are on the consignment?

Kind: What colli-type (pallet, industrial pallet, colli, package with more)?

Contents: What does the sending contain?

Weight: How much does the consignment weigh in total?

Volume / Volumecode: How much does the consignment fill? Cubic (=CBM) or loading meter (=LDM)? (Could be pre filled if you ONLY have one volume designation – please contact you E-service contact person by FREJA)

Length / Width / Hight / Unit: Measurements on the goods as well as unit.

The screenshot shows a form titled 'Dimensions'. It has three main sections:

- GROSSWEIGHT** and **NETWEIGHT**: Both fields contain the value '0,00'.
- VOLUME**: The field contains '0,000' and a dropdown menu set to 'LDM'.
- Dimensions Table**: A table with columns L, W, H, and UNIT. All values are '0' and the unit is 'CM'.

If there is a setting for filling in measurement (lxwxh) the system will stop if you don't tap that in – and when tapped, the system calculates upon the volume based upon the lxwxh

Two side-by-side screenshots of the 'Dimensions' form showing different volume calculations:

- Left Screenshot:** VOLUME is 2,400 LDM. Dimensions are L: 80, W: 180, H: 80 CM.
- Right Screenshot:** VOLUME is 1,800 LDM. Dimensions are L: 180, W: 80, H: 80 CM.

Be aware off how you tap in L and W – the calculation is based upon this !!

Whether it's possible to load anything next to (W) the goods

So if the W is like int this example 180 we will not have room for another pallet next to this = it count 2,4 loading meters

So if W is 80 we will have room next to this pallet for other pallets and therefor the calculation is the 1,8 loading meters

Temperature:

Extra

FROM TEMPERATURE	TO TEMPERATURE
0,0	0,0

Temperature from /to: If the booking has to be transported with temperature, 'From Temp.' must be filled in with lowest temp. and 'To Temp.' filled in with highest temp.

Dangerous goods / ADR:

If the consignment contains dangerous goods the fields need to be filled in with correct data – these will be visible for FREJA.

Search via 🔍 on ex UN-nr., and all the fields will be filled in automatically.

Domestic trading packaging:

Indenrigs bytte emballage

EX.ALFA1	EX.NUM1	0
EX.ALFA2	EX.NUM2	0

If there is a national exchangeable pallet agreement between you and FREJA, we ask you to note what type of exchangeable pallets it is in this screenshot (EUR-, Halfpallet, Quaterpallet or other type of exchangeable PALLET).

You note the **amount** of pallets that should be exchanged in the respective fields.

OK to freight lines / Possibility for more freight lines:

If there are more freight lines on the shipment: press 'save and new product line'.

If the freight line OK: press 'save and return'

Create booking:

When all of the information has been entered press, and you are now ready to create booking.

Possibility to attach documents

Here you can fill in the e-mails addresses that should receive the print. After this OK. If it is always the same e-mails that should receive the prints this can be set as default under the tab "profile" (get more information p. 26)

Within short time you will receive one or more e-mails with PDF-fil, which contains the document wished for (optionally check unwanted mails/spam).

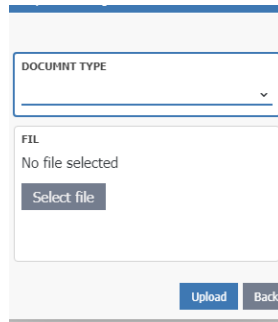

If you wish to have prints shown directly on the screen, browser windows equivalent to the amount of prints wanted shall be opened. From here you can print them.

If you want it to be shown on the screen by default, write to: webbooking@freja.com

It is also possible to re-print documents in the tab 'Prints (get more information p. 23).

Enclose document:

Press 'Enclose document'

The screenshot shows a web interface for document upload. It features a dropdown menu for selecting a document type, a file selection area with a 'Select file' button, and 'Upload' and 'Back' buttons at the bottom right.

Choose doc. type via the dropdown-menu and press 'File'.

You can now browse via own local pathfinder and attach wanted doc.

In you want to attach multiple docs. Repeat the function.

After this press 'Upload'.

It is also possible to attach doc. after the the booking has been sent to FREJA (get more information under 'Prints' on p.23).

Update booking

This has multiple options:

- Find/search existing bookings
- Edit/delete booking
- Copy booking
- Reprint of various doc.: consignment note/label/booking formula
- Create booking list
- Estimated freight price
- Upload of document

Find/Search existing bookings:

Enter the wished for search period 'Date interval'. If you fx have entered a reference when creating a booking, then this can also be entered in the search field.

When all information has been entered, press 'Search'.

Edit/Delete booking:

It is possible to edit or delete a booking as long as FREJA has not handled nor pre-disposed the booking.

You have to contact the traffic if you wish to edit the booking after this has happened .

Search for booking using date and opt. reference and if the booking can be edited it is also possible to press edit or delete

It is possible to edit the cargo line which contains the following: Mark and Nr., quantity, kind, contents, weight, Volume and dangerous goods information.

Copy booking:

It is possible to copy from a previous booking by pressing copy and a copy of an existing booking is created.

You now have the possibility to edit in the fields under Reference/Date, Comments and Cargo lines and after this create a new booking.

Reprint of various doc.: consignment note / label / booking formula:

More information under 'Prints (p. 23).

Create booking list:

More information under 'Prints (p. 23).

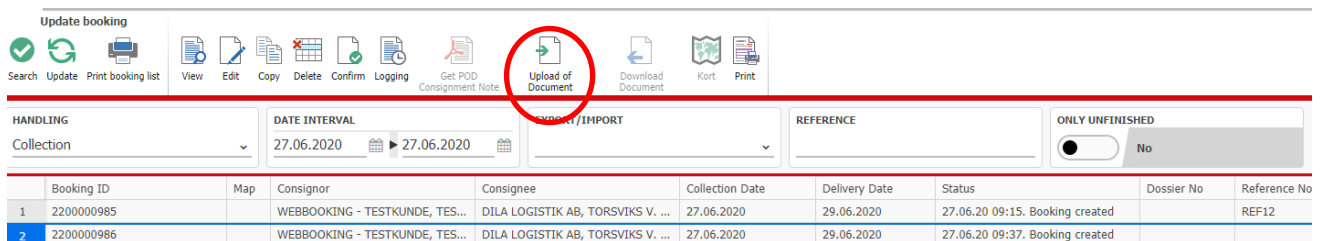

Estimated freight price:

If the entered booking matches one of your freight offers, this estimated freight price will appear here. It is an estimated price which means it does not account for opt. expresses, time deliveries, lift deliveries etc.

More information under the topic 'Freight calculator' (p. 27).

Upload of document:

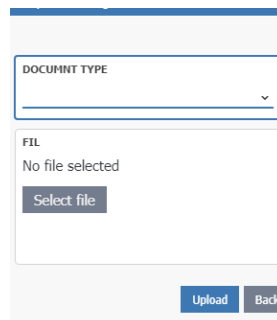

It is also possible to attach doc. after a booking has been sent to FREJA.

The screenshot shows the Freja system interface. At the top, there is a toolbar with various icons. The 'Upload of Document' icon, which shows a document with an upward arrow, is circled in red. Below the toolbar, there are several input fields: 'HANDLING' (set to 'Collection'), 'DATE INTERVAL' (27.06.2020 to 27.06.2020), 'EXPORT/IMPORT', 'REFERENCE', and 'ONLY UNFINISHED' (set to 'No'). Below these fields is a table with columns: Booking ID, Map, Consignor, Consignee, Collection Date, Delivery Date, Status, Dossier No, and Reference No. The table contains two rows of data.

Here is the truck at the moment.

Status is updated ca. every 15 min.

This is an indication on where the truck is located at the moment – it doesn't tell you the exact time of arrival

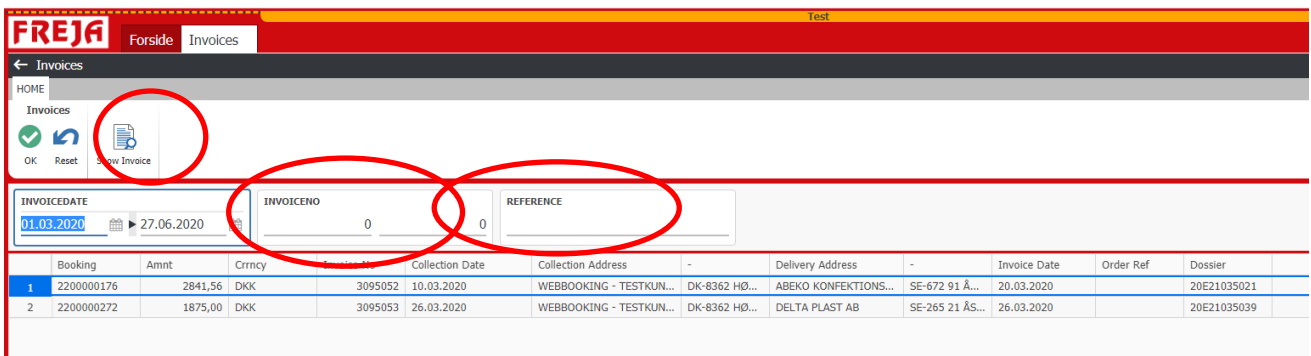

Driving time, traffic problems etc. are not taken into reservation

Receipted consignment note (PoD)

When FREJA scans a receipted consignment note into the system or a link to this it will be visible at your E-service solution. This is shown with a small PDF-icon  in the column PoD (=Proof of Delivery). You can see the consignment note by double clicking on  or via URL-link which is found under 'show log'.

Invoice overview

As soon as a shipment has been invoiced, it is possible to get a copy via invoice overview. By using date from/to you can see all of the invoices created.

It is also possible to enter a specific invoice number or reference.

Mark the invoice line and 'show invoice' will appear.

Possibility to calculate the expected freight price, from the applicable freight offer between you and FREJA without booking.

The following shall as minimum be entered, if it has to calculate freight price:

- Pick up Date
- Pick up country + postal code.
- Delivery country + postal code.
- Quantity
- Kind
- Gross weight
- Volume and volume code
-

The screenshot shows the FREJA Freight Calculator interface. At the top, there is a navigation bar with the FREJA logo, 'Forside', and 'Freight Calculator'. Below this is a header with 'Freight Calculator' and a 'HOME' link. A navigation bar contains three buttons: 'Validate', 'Reset', and 'Calculate Revenue', with the 'Calculate Revenue' button circled in red. The main area is divided into 'Information' and 'Item Information' sections. The 'Information' section includes fields for 'COLLECTDATE' (27.06.2020), 'DELIVERDATE' (27.06.2020), 'ORDER TYPE', 'INCOTERMS', 'COLLECT' (Denmark, 7600), 'DELIVER' (Sweden, 265 39), 'TEMPERATURE' (0,0), and 'ADR CLASS'. The 'Item Information' section is a table with columns: Qntity, Type, Gross Weight, Net Weight, Volume, Volume Code, Length, Width, Height, and Unit. The table contains one row with a quantity of 1, type 'PALLET', gross weight of 120,00, net weight of 0,00, volume of 0,00, volume code 'LDM', length of 120, width of 120, height of 80, and unit 'CM'.

Qntity	Type	Gross Weight	Net Weight	Volume	Volume Code	Length	Width	Height	Unit
1	PALLET	120,00	0,00	0,00	LDM	120	120	80	CM
0		0,00	0,00	0,00		0	0	0	
0		0,00	0,00	0,00		0	0	0	
0		0,00	0,00	0,00		0	0	0	
0		0,00	0,00	0,00		0	0	0	

Press 'Calculate'

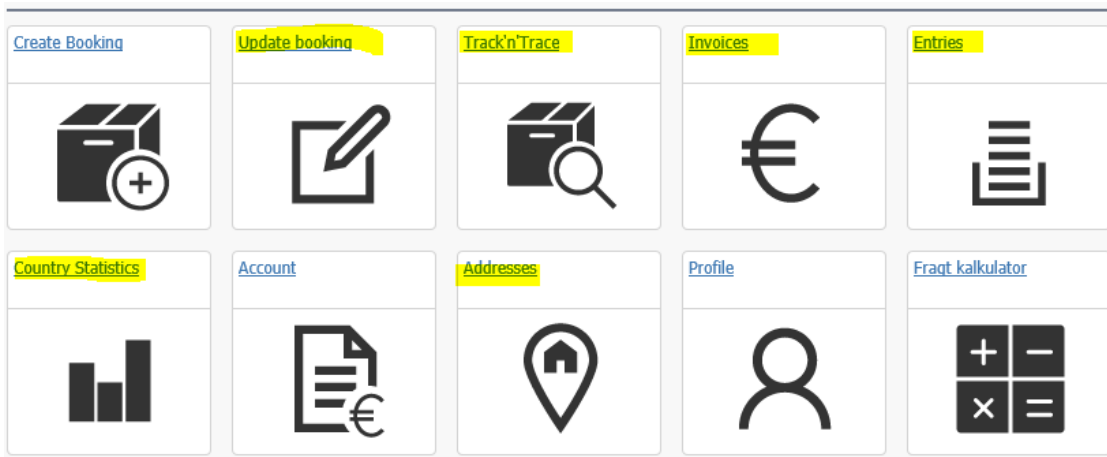

If the booking matches a freight offer the calculated freight price will appear here:

NETTO		PROSPLJETTIO		SKOPIS		TOTAL		VALUTA	
1137,88		0,00		0,00		1137,88		DKK	
Kode	Tekst	Antal	Enhed	Sats	Valuta	Pris pr.	Momsats	Betalt	
1	10 Fragt NO-18...	1,00	V	612,00	DKK	1	0,00	612,00
